## Project Manager

---

### About IAM Experts:

IAM Experts is a leading consultancy firm that provides professional services in Identity Access Management (IAM) to organisations worldwide. With over 16 years of industry recognition, we are committed to delivering expertise and dedication to every project. Collaborating with established leaders and emerging vendors, we stay ahead through continuous technology watch. Operating across three continents with offices in the UK, France, India, and South Africa, our diverse team is proficient in 5+ languages, supporting clients globally. We take pride in our international reputation and rely on the support of over 360 valued consultants in the IAM space. In our dynamic environment, we promote open communication, respect, trust, and ongoing improvement.

We are seeking an experienced and results-driven **Project Manager** with 5–10 years of proven success in the IT industry to lead and deliver technology initiatives across multiple business areas. The ideal candidate will demonstrate a strong ability to manage cross-functional teams, coordinate with stakeholders, and consistently drive projects to completion—on time, within budget, and in alignment with strategic goals. This is a full-time, primarily remote position open to professionals based in South Africa or UK.

### Job Description:

The **Project Manager** holds responsibility for the completion of projects taken on by IAME Ltd, working closely with and reporting to the Managing Director. This role plays a key part in driving the successful execution of IT projects that support business growth, enhance operational efficiency, and ensure alignment with organisational objectives and technology strategies.

### Key Responsibilities:

- Lead end-to-end project management for IT initiatives including software development, infrastructure upgrades, cloud migrations, cybersecurity enhancements, and system integrations.
- Define project scope, objectives, milestones, and deliverables in collaboration with business and technical stakeholders.
- Develop detailed project plans using Agile, Waterfall, or hybrid methodologies as appropriate.
- Coordinate internal resources and third-party vendors to ensure seamless execution.

- Manage project budgets, resource allocation, and schedules.
- Identify, track, and mitigate project risks and issues.
- Facilitate daily meetings, sprint planning, retrospectives, and other Agile ceremonies when applicable.
- Provide clear and timely updates to stakeholders, leadership, and cross-functional teams.
- Ensure adherence to IT governance, compliance, and security standards.
- Support user acceptance testing (UAT), go-live planning, and change management processes.

### **Your Experience & Qualifications:**

- Bachelor's degree in Computer Science, Information Systems, Business, or related field.
- 5–10 years of experience managing IT projects.
- Solid understanding of IT systems, networks, databases, cloud platforms, and software development life cycles (SDLC).
- Proficiency in project management tools like JIRA, Confluence, MS Project, or Smartsheet.
- Experience with Agile (Scrum, Kanban) and traditional Waterfall project methodologies.
- Excellent leadership, communication, and stakeholder management skills.

### **Certifications (Preferred):**

- PMP (Project Management Professional), PRINCE2
- Certified ScrumMaster (CSM) or PMI-ACP
- ITIL Foundation

### **Key Competencies:**

- Ability to work collaboratively with cross-functional teams.
- Strong multitasking abilities and the capacity to manage competing priorities effectively.
- Comfortable working under pressure in fast-paced or high-stakes environments.
- Naturally curious and proactive in seeking innovative solutions and continuous improvement.
- Confident in decision-making and able to stand their ground when needed, while remaining professional and respectful.
- Excellent interpersonal skills with the ability to communicate firmly yet politely across all levels of the organisation.

This is a full-time position, Monday to Friday, working remotely, with team meetings once per month in our London office in Paddington / Cape Town office.

***Please note, you must be authorised to work in the United Kingdom / South Africa. We do not currently offer visa sponsorship.***

### **Why Join Us:**

At IAM Experts, you'll have the opportunity to work with cutting-edge technologies and collaborate with a talented team of professionals. We offer competitive compensation, comprehensive benefits, and opportunities for career growth and advancement. If you are passionate about technology and cybersecurity and thrive in a vibrant environment, we'd love to hear from you!

IAM Experts is an equal opportunity employer and values respect, diversity, inclusivity, and fairness in the workplace.

### **Contact:**

If you want to be part of our dynamic and talented team, please submit your CV and cover letter outlining your experience to [careers@iamexperts.org](mailto:careers@iamexperts.org).

Applications will be reviewed on a rolling basis until the position is filled.
